

A) Can you share with us something about yourself?

My name is Pheemaphat Promnut. I'm 22 years old. I graduated my degree in Faculty of Science, Major Computer Science from Kasetsart University. I chose to study in this field because I'm interested in programming and my family thinks this field is right for me. However, I think this field makes me happy to live with it.

B) What job do you want to apply for?

I want to apply for Programmer.

C) Why are you interested in this job?

Because I feel I'm suited to this type of work and this is my ideal work. And I also like the culture and work atmosphere of your organization. I've been reading about your company and it seem like a great fit for my personality here. I'm sure I will enjoy with my work

D) What are you greatest strength and weakness?

I think one of my greatest strength is as a problem solver, I can get my work done even in the face of difficult obstacles. I'm a hardworking person when I commit to a deadline, I do whatever it takes to deliver. And my weakness is I'm too much of a perfectionist.

E) Why should we hire you?

Thanks for question. I have all of the skills and experiences that you're looking for and I'm confident that I would be able to make a good match in this job.

F) Where do you see yourself in 10 years time?

In 10 years, I would like to grow with your company. I would like to learn more and develop myself with this company to be as a senior in the future. I would like to gain a better knowledge and understanding of this job.

I really appreciate the chance to have an interview with you today. Thank you so much.
